Every BEARTRAX tap guitar is one-of-a-kind!

Only a very limited number of axes per year comes out of my workshop.

If you look for an axe with xx strings, divided in xy groups, with xyz tuning, for yy kinda music, drop me a mail.

We can discuss what's possible, and makes sense for your playing ...

When you finally order your dream axe, send me 50% of the original price.

The other 50% of the bill when it's ready.

There's only 4-5 months, and you will hold your BEARTRAX dream baby in your arms.

mail me for your dream axe!
